Projects

Online Learning Management System

A comprehensive platform designed for delivering online courses, managing student data, facilitating assignments, and tracking progress. The system provides a user-friendly interface for both instructors and learners, enabling an engaging educational experience.

<https://arwebacademy.com>

The Online Learning Management System (LMS) serves as an integrated platform for students and educators, offering features such as course registration, class participation, assignment submissions, and certificate issuance. The LMS is designed to enhance learning efficiency and improve communication between students and instructors, promoting a collaborative online education environment.

Online Learning, E-Learning, Learning Management System, Education Technology, Course Management, Student Engagement, Remote Learning, EdTech

Blog Posting Website

A platform for users to create, share, and discover blog posts on various topics. It provides a user-friendly interface for writers to publish their content and for readers to engage with articles through comments and shares.

<https://blog.arwebacademy.com/>

The Blog Posting Website serves as a digital space for authors to express their ideas and for readers to access a diverse range of topics. With features like user accounts, comment sections, and categorization of posts, the platform encourages interaction and community building among users. It aims to foster a culture of sharing knowledge and insights in a dynamic online environment.

Blogging, Content Creation, User Engagement, Online Community, Article Publishing, Digital Writing, Reader Interaction, Content Management System

E-commerce Solution

A comprehensive platform designed to facilitate online buying and selling of products and services. It offers features like product listings, shopping cart functionality, secure payment processing, and order management to enhance the online shopping experience.

<https://ecom.arwebacademy.com/>

The E-commerce Solution provides a seamless and efficient shopping experience for customers, integrating essential functionalities such as inventory management, customer accounts, and order tracking. It aims to support businesses in establishing an online presence and optimizing their sales processes, making it easier for users to browse, compare, and purchase products online.

E-commerce, Online Shopping, Digital Marketplace, Payment Processing, Inventory Management, Shopping Cart, User Experience, Retail Technology

Portfolio Website

A personal website showcasing professional work, projects, and skills. It serves as a digital resume where individuals can highlight their achievements and share their expertise with potential clients or employers.

<https://ahsan.arwebacademy.com>

The Portfolio Website is designed to present an individual's work in a visually appealing manner, allowing for easy navigation through different projects, case studies, and testimonials. This platform enhances personal branding and serves as a tool for networking and attracting opportunities in various fields.

Portfolio, Personal Branding, Professional Website, Project Showcase, Digital Resume, Skills Presentation, Creative Work, Freelance Portfolio

Volunteering

Green University Blood Club

Executive Membar

<https://green.edu.bd/community-engagement>

jun 2022

Purbachal American City , Rupganj ,Narayanganj

As an Executive Member of the Green University Blood Club, I actively participate in organizing blood donation drives, raising awareness about the importance of blood donation, and collaborating with local hospitals and communities. This role allows me to contribute to public health initiatives, engage with fellow students, and promote a culture of giving back to society.

Green University Computer Club

feb 2022

Member
<https://green.edu.bd/club/computer-club>

As a member of the Green University Computer Club, I engage in various activities related to technology and programming. This includes participating in workshops, coding competitions, and collaborative projects that foster skill development and knowledge sharing among peers. The club aims to enhance members' understanding of computer science and promote interest in emerging technologies.

Certifications

SQA
By - Sumia Akter Ria
<https://ostad.app/share/certificate/c14231-ahsan-ul-alam>

March 2024

I have learned the essential principles and practices of Software Quality Assurance (SQA), which involved understanding various testing methodologies, tools, and techniques to ensure the quality and reliability of software systems. This certification provided hands-on experience and knowledge in identifying, preventing, and solving software defects, ensuring a smooth and efficient development process

Digital Marketing

By - Russel A Kawser

Jun 2024

<https://ostad.app/share/certificate/c17648-ahsan-ul-alam>

I have acquired knowledge and skills in digital marketing, focusing on key areas such as search engine optimization (SEO), pay-per-click (PPC) advertising, social media marketing, content strategy, and performance analysis. This course helped me understand how to drive traffic, engage audiences, and convert leads using digital platforms.

Fundamentals of Web Development

By - Rabbil Hasan Rupom

<https://ostad.app/share/certificate/c11259-a-ahsan-ul-alam>

I gained foundational knowledge in web development, covering essential topics such as HTML, CSS, JavaScript, and basic backend development. This course provided hands-on experience in building functional websites, enhancing my understanding of responsive design, web standards, and best practices for front-end and back-end development.

Php Laravel

By - Hasin Haydar & Rabbil Hasan Rupom

<https://ostad.app/share/certificate/c10398-md.-ahsan-ul-alam>

This course provided in-depth training in PHP and Laravel, covering core concepts such as routing, middleware, controllers, views, and database management using Eloquent ORM. Through hands-on projects, I developed web applications utilizing Laravel's MVC architecture, enhanced security measures, and built efficient, scalable systems.

Awards

2nd Runners Up | Hult Battle

Hult Prize - GUB

March 2022

<https://tinyurl.com/hult-ahsan>

Participated in the Hult Battle competition organized by the Hult Prize Foundation at GUB. This competition focused on generating innovative solutions to global challenges, fostering entrepreneurship, and encouraging social impact. My involvement allowed me to collaborate with a team to develop creative ideas and business models aimed at addressing pressing global issues.

BD Apps National Hackathon (Regional)

BD APPS

August 2022

<https://tinyurl.com/bdapps-ahsan>

Participated in the BD Apps National Hackathon (Regional) in August 2022. This event brought together innovative developers to build creative mobile applications using the BD Apps platform. My involvement in this hackathon allowed me to apply problem-solving skills, collaborate with a team, and develop a solution that addresses real-world challenges through technology.
